## **PREFACE**

The present issue of the Quarterly Trade Report presents Statistics on Principal Imports and Exports for the Kingdom of Tonga for the Fourth Quarter 2012. A chart showing the Quarterly Trend of Imports, Exports, Re-exports and the Visible Balance of Trade for the various Quarters since Second Quarter of 2006 precedes the various statistical tables.

An Introductory note explains the Sources of Data, Valuation of Imports and Exports, systems of recording and classification of the statistics and other related aspects. Imports and Exports are classified using the Harmonized System Nomenclature (HS)

The Statistics Department wishes to acknowledge with appreciation the cooperation extended by the Customs authorities in Nuku'alofa (Tongatapu) and Neiafu (Vava'u) in making available relevant documents to facilitate the preparation of this report. The Department would welcome any comments and suggestions from users to enable it to improve the scope and content of this report.

## INTRODUCTORY NOTE

---

---

### GENERAL

Statistics presented in this report cover all goods imported into and exported (including those re-exported) from the Kingdom under Customs Act No.25 of 1999 on Private, Government and Quasi-government accounts during the stated period, except: -

- a. Direct transit trade goods transhipped through the Kingdom
- b. Goods exported exbonded warehouse
- c. Migrants and passengers effects for which a customs entry is not received
- d. Post Parcel imports and exports of small value for which customs entries are not received
- e. Samples, advertising materials and patterns of No Commercial Value (NCV)

### SOURCE OF DATA

The Statistics presented have been compiled from import, export and re-export entries submitted by importers and exporters or their authorised agents to the Customs Division as required by the Customs Act and Regulations. The import entries show the country of consignment and country of origin, the date of clearance of goods through customs, description and value of each item of goods and the amount of duty collected thereon. The export and re-export entries show the port of shipment and the country of destination of goods, date of shipment, description and value of each item of goods, and export duty if any realised thereon. All the entries are checked by the authorised officers of the Customs Division for various particulars and duty assessment, and are then passed on to Statistics Department on electronic forms for further processing.

### VALUATION

#### *i. Imports*

The valuation of Imports is taken at CIF basis; that is the normal price of the goods delivered to the buyer at the port of importation in Tonga together with freight, insurance and commission costs and all charges and expenses incidental to the sale and delivery of the goods at the port of importation but excluding excise duties sales, purchase or value added tax or other costs payable in the country of export and further excluding any import duty or other tax payable in Tonga. Values are shown in Tongan currency (T\$). The exchange rate used for the conversion of CIF value of goods for duty purposes is the one set by customs based on the selling rate of such foreign currency by the Westpac Bank of Tonga as last notified before the goods were entered. The exchange rate of the foreign currencies of the principal trading partners is given at serial 14.

#### *ii. Exports*

Two systems of valuing exports are used:

- a. Goods sold and shipped abroad are valued on FOB (free on board) basis; that is, the price, which a buyer would pay for, the goods on board a vessel at the port of shipment in Tonga exclusive of local port charges and taxes.
- b. Certain commodities are shipped on consignment basis, their selling prices is not known until these goods are disposed of at their destination. In such cases, f.o.b. values are assessed on the basis of prices current at the time of export.

## **SYSTEM OF RECORDING THE STATISTICS:**

The Statistics presented in the Report are on "General Trade" basis. This means all goods, which enter the Kingdom whether directly for domestic consumption or into bonded warehouse are recorded as imports. Similarly all goods shipped abroad are shown either as exports or as re-exports as applicable.

### **1. Imports:**

#### **a. Merchandise Trade:**

Imports trade includes goods, which add to the stock or material resources in Tonga as a result of their movement into the country. Similarly, imports are not confined to goods which are the subject of a commercial transaction but cover all goods which meet the above criterion.

#### **b. Non-Merchandise Trade:**

Non-Merchandise Trade goods are those recorded separately from Merchandise Trade. Included in Non-Merchandise Trade are:

- i. Goods being returned after repair or modification from overseas
- ii. Leased or loaned goods

#### **c. Exclusion:**

- i. Temporary imports into Tonga such as tourists' effects including vehicles, travellers' samples, returnable containers, ships and aircraft engaged in international trade and transit or transshipment of goods.
- ii. Fish and other sea products landed in Tonga from either extra-territorial waters or the high seas by Tongan vessels.
- iii. Goods, other than motor vehicles imported for official representative of overseas countries.
- iv. Passengers baggage (except vehicles) imported permanently.
- v. Currency transactions in Gold, Silver and Current Coin
- vi. Imports of a value not exceeding \$10 for which customs entries are not required.
- vii. Goods on loan.
- viii. Replacements for short shipped or short packed goods previously recorded.
- ix. Goods imported for use by foreign armed forces.

### **2. Exports:**

#### **a. Merchandise Trade:**

Merchandise Trade includes goods, which subtract from the stock or material resources in Tonga as a result of their movement out of the country. Consequently, the term Merchandise need not be confined to goods, which are the subject of a commercial, transaction but covers all goods which meet the above criterion.

Tonga Produce (Exports) comprise all goods and materials grown, produced or manufactured in Tonga from imported materials which have changed in character as the result of the production process. Re-exports are goods, materials, or articles exported in the same condition as that in which they were imported, and other imported goods which have undergone operations (e.g. repackaging or bottling) which leave them especially unchanged.

#### **b. Non-Merchandise Trade:**

Non-Merchandise Trade goods are recorded separately from Merchandise Trade. Included in Non-Merchandise Trade are:

- i. Goods being returned after repair or modification in Tonga.
- ii. Goods on short term loan or lease
- iii. Service Transactions, e.g. computer data tapes and drawings etc.

#### **c. Exclusion:**

- i. Goods consigned to Tonga forces or diplomatic representatives overseas
- ii. Goods consigned for modification or repair
- iii. Currency transactions in Gold, Silver and Current Coin
- iv. Exports of a value not exceeding \$10 for which customs entries are not required
- v. Goods for foreign and projects
- vi. Replacements, short shipped or short packed goods previously recorded
- vii. Returnable containers, i.e. used gas cylinders
- viii. Returnable samples
- ix. Aircraft spares being consigned overseas for use in a Tongan aircraft and unserviceable parts, which have been removed from foreign aircraft, being returned overseas
- x. Temporary trade items and tourist or travellers effects leaving Tonga

### COUNTRY OF ORIGIN OR DESTINATION:

Country of Origin for imports refers to the country where the final production of imported goods takes place and not necessarily the country where the goods were purchased. In the case of partly manufactured goods the country of origin is taken as the country in which the final operation has altered to an appreciable degree the character, composition and value of goods.

Country of Destination for exports and re-exports refers to the country to which the goods are actually consigned at the time of export or re-exports.

### UNITS OF QUANTITY:

Quantity where shown, represents the net weight, volume or size of goods, excluding packing, wrapping and containers. Effort has been made to give quantity information for as many items as possible. Quantity information for a number of imported items could not be given in this report as such information was not readily available from the import entries.

Quantity data have been given in metric weights and measures. A table giving conversion factors required for converting metric to imperial units and vice versa is provided on Pages viii.

### CLASSIFICATION OF COMMODITIES:

The classification of commodities both for imports, exports and re-exports is based broadly on the Harmonized System (HS) published by the United Nations to assist in the comparability of the data in this Report with data published by countries in the region and elsewhere with similar classification. In few cases one item of HS has been subdivided into two or more items to reflect appropriately the Tariff structure of the Kingdom.

With effect from 1st January 1986, all imports, exports and re-exports have been classified by the institutional sectors as under:

#### Institutional Sector:

1. Private Sector
  - 11 Private Only
  - 12 Private special duty exemption
  - 13 Private (under aid/grant basis)
2. Government Sector
  - 21 Government Only
  - 22 Government (under aid/grant basis)
3. Quasi-Government Sector
  - 31 Quasi-Government only
  - 32 Quasi-Government special duty exemption
  - 33 Quasi-Government (under aid/grant basis)

### SYMBOLS AND ABBREVIATIONS USED:

The following symbols and abbreviations have been used in the Report.

- .. Not applicable
- ... Data not available
- 0.0 Magnitude less than half of unit employed
- Nil
- e Estimate
- r Revised figures
- NEC Not Elsewhere Classified
- NES Not Elsewhere Specified

#### Note:

Totals in some Tables may not tally due to rounding of value figures to Tongan Pa'anga and quantity figures to whole numbers.

**Foreign Exchange Rate:**

Currencies of the principal trading partners of the Kingdom vis-à-vis the Tongan dollar are given below. These rates are based on the selling rate of Commercial Banks for the date shown below.

**Notes:**

1. Rates for selling and buying overseas currency are somewhat different.
2. Above rates are Tongan rates of the quoted foreign currency. To convert Tongan currency into foreign currency - multiply by the rate.
3. On February 11, 1991, Tongan currency (Pa'anga) changed the procedure for fixing the daily value from maintaining parity with Australian dollar (A\$) to pegging it to a specially constructed basket of the currencies of Tonga's main external partners and quoting Pa'anga in terms of the US dollar (US\$).
